SWING

SLIDE

PARKING

SHUTTER

## GATE OPENER

### PRO - 500 / 800 / 1200 / 1600 SERIES

#### PRODUCT FEATURES

1. Patent product with international innovation LED running indicator light
2. Remote control with rolling code technology
3. Powerful AC motor with low noise and overheat protection
4. Emergency release provides manual operation in case of power failure
5. Safety further ensured with optional accessories photocells and flashing light
6. Color: Blue, Gray, Red

### CRANK ARM TYPE SWING GATE OPENER

#### PRO - 200 SERIES

#### PRODUCT FEATURES

1. Strong alloy aluminum design
2. Rotary limit switch, high position accuracy
3. Soft start and soft stop
4. Reverse or stop when meet obstacle.
5. Automatic closing time setting

### ROLLER SWING GATE OPENER

#### PRO - 680 / PRO - 690

#### PRODUCT FEATURES

1. Can adapt to slightly uneven ground.
2. Specially developed compact model, lightweight, delicate, and easy to install.
3. Can be set with single gate or double gate opening.
4. Rebound when encountering obstacles, with high safety performance.
5. Provides multiple external expansion interfaces  
(Fingerprint, Facial recognition, Bluetooth, Warning lights, Infrared, Visual, Access Control, License Plate Recognition, Remote APP system, etc.)

### ARM TYPE SWING GATE OPENER

#### PRO - 500 SERIES

#### PRODUCT FEATURES

1. Emergency release key in case of power failure.
2. Motor single running time is set withing 60s to ensure safety of the motor.
3. After the gate is fully opened,the gate will auto close at the setting time.
4. The gate opener will stop automatically if meet people,vehicle or other obstructions to ensure safety.  
(Long type total length; 990mm. Short type total length: 790mm)

### 220V VARIABLE FREQUENCY CONVERSION PRO COMMERCIAL SERIES - 3000 / 3500 / 5000

#### PRODUCT FEATURES

1. With large starting torque and it is not easy to heat up, can run continuously for a long time.
2. Adopting special frequency conversion technology: smooth operation, excellent deceleration effect, especially suitable for particularly heavy gates.
3. Adopting special frequency modulation technology: the motor running speed can be adjusted from 13 meters to 24 meters, with high-speed operation function
4. Extra large capacitor provides continuous power.

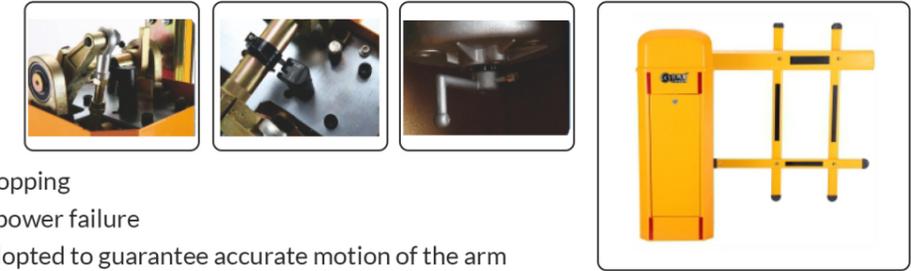

### AUTOMATIC VEHICLE BARRIER

#### PRO - 4M / 6M

#### PRODUCT FEATURES

1. Motor with over-heat protection
2. Barrier arm down slowly before stopping
3. Arm can be manually raised when power failure
4. Extremely sensitive limit switch adopted to guarantee accurate motion of the arm

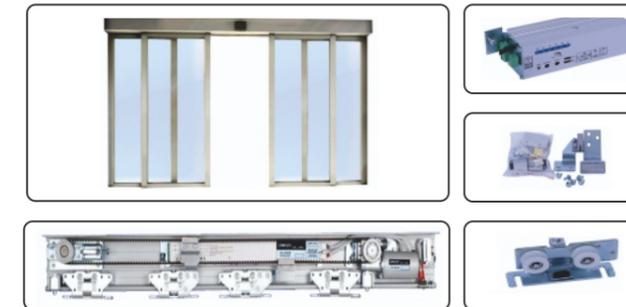

### AUTOMATIC SENSOR DOOR OPERATOR

#### PRO SERIES

#### PRODUCT FEATURES

1. Auto-reversing when confronting with obstacle.
2. UPS when power fails to provide escaping passage.
3. Protection when working temperature is over setting value.
4. The microcontroller also provide the interface for alarming system,safety system,etc.

#### GATE HARDWARES
